

Macroeconomic indicators quarterly reports

Published: 16.04.2021.

In accordance with the Law on the state budget [2021](#), as well as the scope of indicators stated in the [Fiscal discipline law](#), Fiscal discipline council endorses macroeconomic indicators forecasts developed by the Ministry of Finance. Once in a quarter, the Council prepares a report on the comparison of actual outcomes with the forecasts.

[Quarter II](#), of 2021, including [MS Excel tables](#).
