

The National Audit Office of Lithuania as an Independent Fiscal Institution

What if IFI didn't exist?

Saulė Išdonaitė-Karalevičienė

1 June 2016

We are so independent that
nothing depends on us

Our remit

- assessment of fiscal stance
- assessment of debt sustainability
- monitoring compliance with fiscal rules and targets
- endorsement of pre-budget baseline macro-fiscal forecasts

What we don't do

Any policy-making or policy recommendations do not fall within the independent fiscal institution's remit

What if IFI didn't exist?

Less fiscal discipline

Less budget transparency

Less public debate
